

1. Work: seismic retrofit and façade repair of the municipal records building.
 2. Install carbon-fibre reinforcement at nominated beams and columns.
 3. Replace expansion joints and repair concrete spalling.
 4. Provide scaffolding, debris removal, protection screens and a site safety plan.
 5. Submit structural calculations, material certificates and inspection reports.
 6. General conditions: sealed tender, tax registration, bank information, non-blacklisting declaration, delivery plan, insurance, warranty, signed forms and purchaser right to clarify or reject bids.
 7. No mechanical water equipment is included in the work scope.
- All quantities are subject to measurement; bidders shall attend the site conference and submit sealed envelopes with signed declarations.
